I am 3rd year Computer Science student focusing Frontend Web Development, especially working with ReactJS library and UI/UX design. I work well in team environments and I display strong work ethics learned from my past experience. I am looking for an internship opportunity to kickstart my career.

Experience

Technical Support Representative

Jul. 2020 - Jul. 2021

🏢 PTW International   📍 Bucharest, Romania

My main responsibilities were
1. Identify customer needs and help customers use specific features by responding to their queries via e-mail.
2. Analyse and report problem that customer is facing and following up to ensure their technical issues are resolved
3. Training junior Customer Support Representatives

Achievements:
1. Over 1 year experience as a Technical Support Specialist
2. Using relevant tools offered by company
3. Patience at handling tough cases
4. Ethics of working at a multicultural company with well over a 1600 employees
5. Critical thinking and problem solving
